UID EXPERIMENT 7

NAME: HARSHINI K P

ROLL NO: 240701183

AIM:

The aim is to trial different app layouts and color schemes and evaluate user feedback on aesthetics and usability using GIMP.

PROCEDURE:

Step 1: Install GIMP

Download and install GIMP from the official website.

Step 2: Create a New Project

Open GIMP and create a new canvas with size **1080 × 1920 pixels**.

Step 3: Base Layout Design

1. Divide Sections:

- Used Rectangle Select Tool to create layout sections.
- Filled sections using Bucket Fill Tool.

2. Add UI Elements:

- Added text using Text Tool (*Welcome, labels*).
- Created input fields and buttons.

3. Layer Organization:

- Organized elements into layers:
    - Header
    - Email Field

    - Password Field
    - Login Button
    - Social Buttons

Step 4: Create Color Variants

1. Duplicate Layouts:

- Created 3 versions of the same layout.
- Applied different color schemes and spacing.

2. Layout Variants:

- **Layout 1:** Simple and minimal (light theme)
- **Layout 2:** Vibrant and colorful (slightly cluttered)
- **Layout 3:** Clean and modern (dark theme)

3. Save Files:

- Layout1.png
- Layout2.png
- Layout3.png

OUTPUT:

Layout 1:

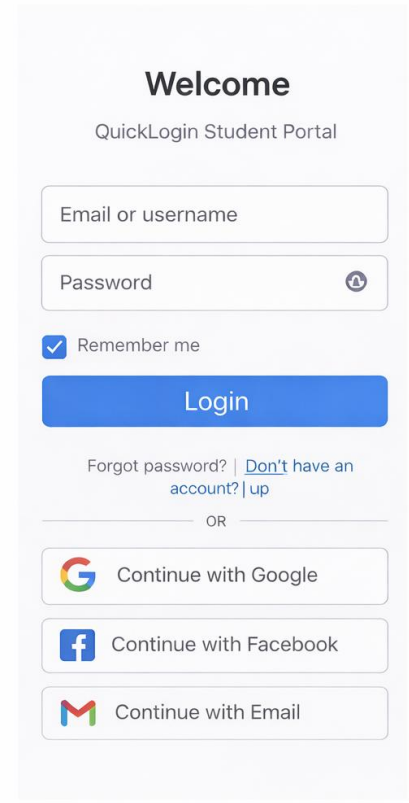

Figure 1: Layout 1 (Basic Theme)

Layout 2:

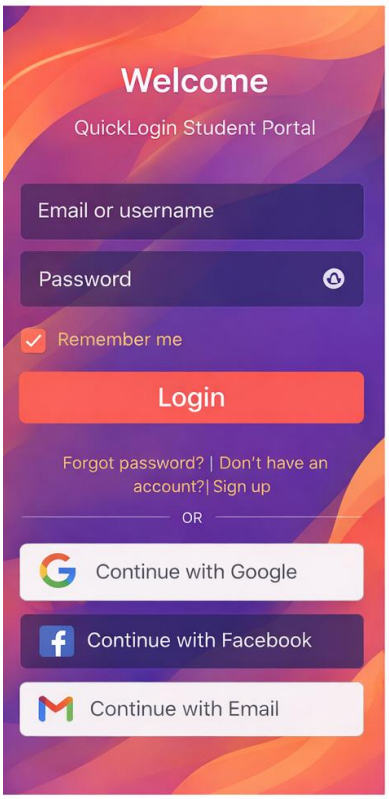

Figure 2: Layout 2 (Vibrant Theme)

Layout 3:

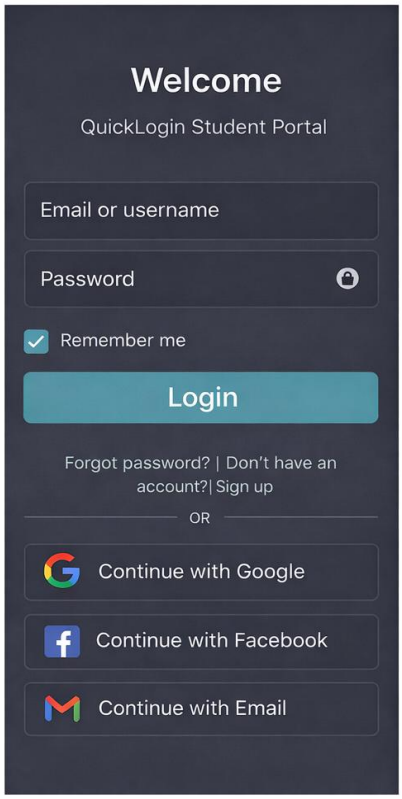

Figure 3: Layout 3 (Dark Theme)

Step 5: Collecting User Feedback

Google Form Link:
https://forms.gle/sxuuHVgaTmMWeRKv6

Procedure:

- Shared layouts with users
- Collected feedback based on:
    - Visual appeal
    - Usability
    - Readability
    - Color preference

USER FEEDBACK:

Layout 1:

- Simple and minimal
- Needs better contrast
- Improve button styling

Layout 2:

- Attractive and vibrant
- Slightly cluttered
- Needs better spacing

Layout 3:

- Clean and professional
- Good readability
- Most preferred

FINAL RECOMMENDATION:

Preferred Layout: Layout 3

Reason:

- Clean and modern design
- Better usability
- Balanced color scheme
- High user satisfaction

Step 6: Iterate and Refine

1. Refinement:

- Improved spacing and alignment
- Enhanced UI clarity

2. Final Testing:

- Verified usability and aesthetics

CONCLUSION:

The experiment shows that layout spacing and color scheme significantly impact user experience. Layout 3 was found to be the most effective and user-friendly design.
