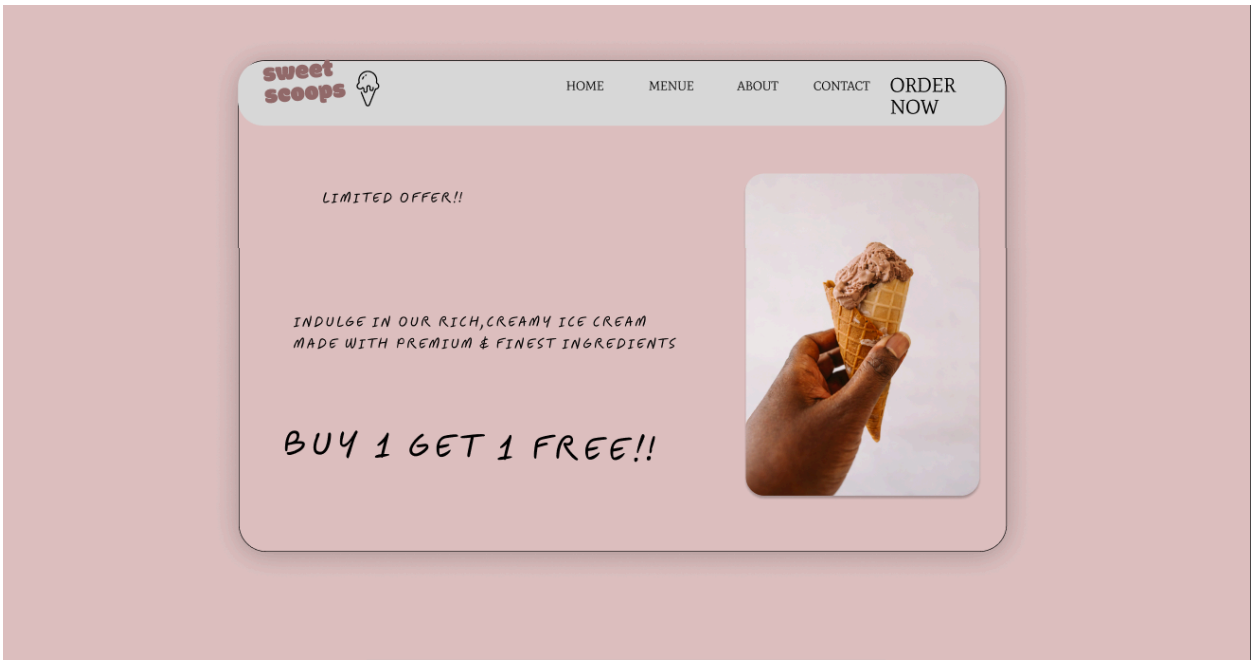
User Interface And Design Comparison Of UI design Between Two Figma Creation.

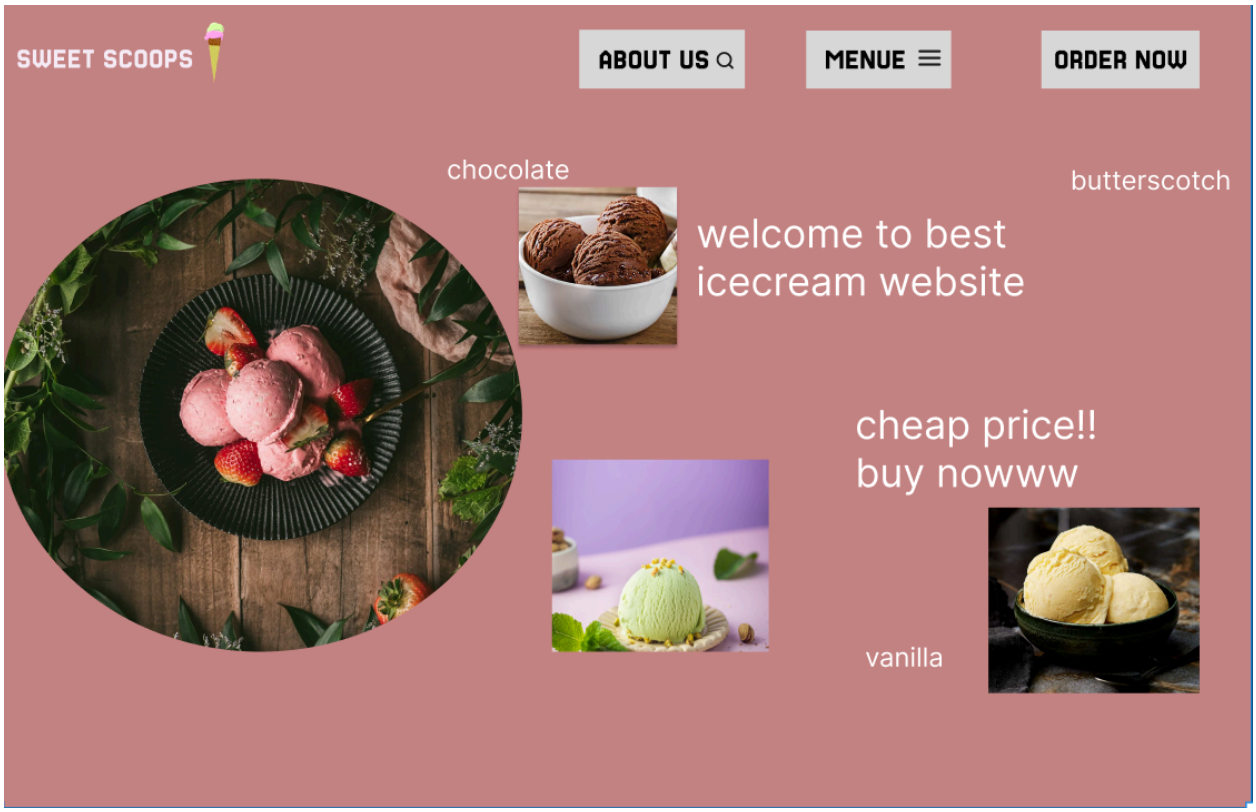
GOOD DESIGN



This design is considered good because:

1. It uses a soft and pleasant color scheme that matches the ice cream theme.
2. The layout is simple and well organized, with proper spacing between elements.
3. The text is readable with good font size and contrast.
4. The main offer (“BUY 1 GET 1 FREE”) is clearly highlighted and easy to notice.
5. The ice cream image is relevant and placed properly without overlapping text.
6. Navigation (Home, Menu, About, Contact, Order Now) is clear and easy to understand.
7. The overall design looks clean, attractive, and user-friendly.
8. Important content is arranged in a way that guides the user’s attention properly.

BAD DESIGN



1. The elements are not properly aligned, making the layout look messy.

2. There are too many images and text, which makes the screen crowded.

3. The design has no clear visual hierarchy, so users don't know what to focus on.

4. The call-to-action ("buy now") is not clearly highlighted, reducing usability.
